Company Profile Garindo Jaya Panel

June 2025

Our vision & mission

Our Vision is to empower Indonesia's industrial and infrastructural progress by engineering a safer, more reliable, more affordable, and efficient energy future

Our Mission:

- 1. To engineer precision electrical systems** that safeguard critical assets and ensure operational continuity for our partners.
- 2. To solve our clients' most demanding challenges** with innovative thinking and uncompromising quality.
- 3. To build a legacy of trust** through consistent performance and steadfast technical support.

Our Core Values

Precision

We believe excellence is non-negotiable. Our commitment to precision engineering is the foundation for the safety and long-term reliability of every system we build.

Integrity

We are guardians of our clients' trust. We operate with absolute transparency and take full responsibility for our role in their critical operations.

Partnership

We are more than a vendor; we are a dedicated technical partner. We invest deeply in understanding our clients' challenges to deliver solutions that drive their progress.

Our Core Services

We provide a complete cycle of electrical solutions, from custom design to professional wiring and supply.

1

Custom Panel Building

Precision-built panels designed specifically for your needs.

2

Electrical Wiring

Expert wiring focused on safety and performance.

3

Electrical Parts & Supply

Precision-built panels designed specifically for your needs.

Custom Panel Building

We design and build special electrical panels that are made to fit your exact needs and work conditions.

Our Capabilities:

- **Choice of Materials:** We work with high-quality Steel, Aluminum, and Stainless Steel (SS304, SS316L).
- **Indoor & Outdoor Designs:** We build panels specifically designed for indoor use and durable, weather-resistant models for outdoor use.
- **Custom Colors:** We offer special powder coating colors for steel and aluminum panels.
- **Special Requests:** We can handle any unique designs or special requirements you have.

Electrical Wiring

Our skilled team provides careful and neat wiring, making sure everything works perfectly and follows all safety rules.

Our Services Include:

- **New Panel Wiring:** Clean and organized wiring for all new electrical panels.
- **All-in-One Service:** We supply all necessary components and cables for the job, ensuring quality and availability.
- **Full Quality Checks:** We test every connection to make sure your system is safe and ready to use.

Electrical Parts & Supply

We are your one-stop source for high-quality electrical parts and materials for your projects.

What We Provide:

- **Ready-Made Panels:** We offer a selection of standard panels ready for common needs.
- **Certified Electrical Parts:** We provide trusted parts like breakers, contactors, PLCs, and more.
- **Industrial Cables:** We offer a wide range of strong electrical cables for any type of job.
- **Guaranteed Quality:** We supply only authentic, high-quality materials from trusted sources.

Our Clients (1/2)

We are honored to be the engineering partner for companies that form the backbone of Indonesia's economy and infrastructure. Their trust validates our commitment to safety and reliability.

Our Clients (2/2)

We are honored to be the engineering partner for companies that form the backbone of Indonesia's economy and infrastructure. Their trust validates our commitment to safety and reliability.

And many more..

A photograph of two people shaking hands in a factory or industrial setting. The person on the right is wearing a light blue polo shirt. The person on the left is wearing a light blue and white striped shirt. In the background, there is a large industrial machine with a digital display and several buttons. A semi-transparent green box is overlaid on the bottom half of the image, containing white text.

Let's Build a Powerful Future.
